

# SCIENTIFIC PUBLICATION

## BASE AND APPLICATION

In the beginning God created the earth, life, man. Man in search of his own creation and evolution unceasingly investigates between science and the divine portals.

The service is the first's social drivers of technological, scientific, cultural and economic.

The producing and communicating science is not to reproduce the absolute truth, but to produce an environment of reflection based on worldview and universal principles.

Our goals of this service in **I&V - Innovation&Value** is to enable our partners to meet the needs:

- Sustainable model;
- Policy Governance clear and objective;
- Low maintenance cost;
- Easy access and availability of physical and digital content;
- Contribution to improvement and integrate of knowledge, of doing science and science policy.

**INNOVATION&VALUE**
